This “Our Rates & Service Charges” disclosure explains current terms, rates and service charges applicable to the savings, checking and certificate accounts we offer. We may offer other rates and require other service charges or amend the rates and service charges, as explained in this disclosure, from time to time. Each owner on an account agrees to the terms described in this disclosure and acknowledges that it is a part of the Member Service Agreement (MSA).

\*To qualify for a Relationship Checking account you must have a min. loan or deposit balance of \$10,000 per account.

## Explanation of Rates & Service Charges

As explained in the MSA, "Our Rates & Service Charges" applies to all the accounts we offer. Except as specifically described, the following terms apply to all of the accounts you have with us.

### 1. Rate Information

The Dividend Rate and Annual Percentage Yield on the accounts you have with us are set forth above. For all accounts except certificates, the Dividend Rate and Annual Percentage Yield may change at any time as determined by the Board of Directors. Share savings and money market accounts are Tiered Rate Accounts. For Balance Builder Checking and Savings accounts and Checking Plus accounts, the Dividend Rate for a particular tier will apply to the portion of the account balance that is within the balance range for that tier. The range of annual percentage yield(s) (which vary depending on the balance in the account) are shown for each tier. For all other savings and money market accounts, if the balance falls within the range for a particular tier, the dividend rate applicable to that tier will apply to the full balance in the account.

The Dividend Rates and Annual Percentage Yields are the prospective rates as of the effective date shown above. For Certificate Accounts, the Dividend Rate and Annual Percentage Yield are fixed and will be in effect for the term of the account. For Certificate accounts, the Annual Percentage Yield is based on an assumption that dividends will remain on deposit until maturity. A withdrawal of dividends will reduce earnings.

### 2. Nature of Dividends

Dividends are paid from current income and available earnings after required transfers to reserves at the end of a dividend period. The Dividend Rate and Annual Percentage Yield set forth above are the rates and yields for the last dividend period as set forth above.

### 3. Compounding and Crediting

Dividends will be compounded and credited as set forth above. For dividend bearing accounts, the Dividend Period begins on the first calendar day of the period and ends on the last calendar day of the period.

### 4. Accrual of Dividends

Dividends will begin to accrue on noncash deposits (e.g., checks) on the business day you make the deposit to the account. If you close the account before accrued dividends are credited, accrued dividends will not be paid.

### 5. Balance Information

The minimum balance required to open each account and earn the stated Annual Percentage Yield is set forth above. If you do not maintain the minimum balance, you will not earn the stated Annual Percentage Yield. For all dividend bearing accounts, dividends are calculated by using the Average Daily Balance method, which applies a periodic rate to the average daily balance in the account for the period. The Average Daily Balance is calculated by adding the balance in the account for each day of the period and dividing that figure by the number of days in the period.

### 6. Certificate Account Features

#### a. Account Limitations

After you start the account, you may not make additional deposits to a Certificate Account.

#### b. Maturity

The Certificate Account you have with us will mature on the maturity date identified on your Account Receipt or Renewal Notice.

#### c. Early Withdrawal Penalty

We may impose a penalty if you withdraw any of the principal of the Certificate Account before the maturity date.

**1) Amount of Penalty.** The amount of the early withdrawal penalty is 60 days dividends calculated on the amount withdrawn if the certificate term is one year or less, and 120 days dividends on the amount withdrawn if the certificate term is more than one year.

**2) How the Penalty Works.** The penalty is calculated as a forfeiture of part of the interest that has been earned at the nominal interest rate on the account.

**3) Exceptions to Early Withdrawal Penalties.** At our option, we may pay the account before maturity without imposing an early withdrawal penalty under the following circumstances: when an account owner dies, or is determined legally incompetent by a court or other body of competent jurisdiction.

#### d. Renewal Policy

With the exception of promotional certificates, all certificate accounts will automatically renew at maturity. For promotional certificate accounts, please refer to the disclosure provided at time of account opening to determine whether the account renews automatically or not. If the promotional certificate does not renew, funds will be transferred to another account you have with us. You will have 10 (ten) days after the maturity date to withdraw funds without penalty.

#### e. Nontransferable/Nonnegotiable

The account(s) you have with us is/are nontransferable and nonnegotiable. This means that an account and the funds in the account may not be pledged to secure any obligation of an owner, except obligations with the Credit Union.

### 7. Checking Plus Account Features

In order to earn the Qualifying Rate and ATM fee refunds (up to \$25 per month for qualifying ATM charges/fees), you must be enrolled in and receive eStatements, have at least one ACH or direct deposit every calendar month and make twelve (12) Visa Debit Card purchases from the account per calendar month. Otherwise non-qualifying rate will apply. The qualified rate is paid on balances up to \$25,000. Balances over \$25,000 are paid a lesser rate. Benefits will be available beginning the first day of the month after the date the account is started. Debit card transactions may take one or more days from the date the transaction was made to post to the account. Transactions that have been initiated but not posted as of the end of the calendar month will not count as a qualifying transaction for that month, but will count in the

following month when they post. This account is not available to Business members of the Credit Union.

### **8. Balance Builder Program Features**

Only one Balance Builder Program is allowed per member, as defined by social security number. In order to earn the Qualifying Rate and ATM fee refunds (up to \$15 per month for qualifying ATM charges/fees) on a Balance Builder Checking account, you must have both a Balance Builder Savings and Checking Account, be enrolled in and receive eStatements, have at least one ACH or direct deposit every calendar month and make twelve (12) Visa debit card purchases from the account per calendar month. The qualified rate is paid on balances up to \$5,000. Balances over \$5,000 are paid a lesser rate. Dividends earned in the Balance Builder Checking Account are deposited into the Balance Builder Savings account each month.

In order to earn the Qualifying Rate on a Balance Builder Savings account, the month over month balance must increase by at least \$1.00 more than the dividends deposited into the account the previous month. In other words, if your January checking and savings dividends totaled \$6.00, then your February total deposits into your Balance Builder Savings account must total \$7.00 or more in order to earn the qualifying dividend rate. The qualified rate is paid on balances up to \$2,500. Balances over \$2,500 are paid a lesser rate.

Minors under the age of 18 may have a Balance Builder Savings account only or both Balance Builder Checking and Savings accounts. Benefits will be available beginning the first day of the month after the date the account is started.

Debit card transactions may take one or more days from the date the transaction was made to post to the account. Transactions that have been initiated but not posted as of the end of the calendar month will not count as a qualifying transaction for that month, but will count in the following month when they post. This account is not available to Business members of the Credit Union.
